

# Visit from Aireworth Vets

July 12<sup>th</sup> 2022

Sam who is a veterinary nurse came to talk about the different animals she has helped to look after at the vets. She brought a guinea pig, two rats and a corn snake.

First we looked at the Guinea pig we all had a turn to stroke it. It felt really soft .

Then Sam showed us the two rats, one had fur and the other one was bald.

Lastly we looked at the corn snake.
