

When Evan The Builder Visited Nursery.

February 2023

Do you remember when Evan the builder came to visit?

Evan talked to us about the different jobs he did as a builder.

Evan showed us
some
photographs of
the houses he
had made.

H said **“That’s
a cool work”**.

The children took it in turns to try on Evans hard hat
A give it a tap **“It sounds like a door”**. We found
out it was made of hard materials and this was to
protect his head from getting hit by objects falling
from high up.

A asked **“Is it heavy”** then when it was his turn to
try on the hat he commented **“It isn’t heavy at all”**.

We began talking about what other building resources we have at nursery and the woodwork bench was mentioned M said **“We have to wear glasses”** when using the woodwork tools.

B asked **“Do you have some tools?”**

“I got a house with doors...and five windows upstairs”.

We took Evan to visit our building area outside and we showed him the hard hats and high vis jackets we have at nursery.

Evan looked at the nursery house to make sure it was safe.

E then decided to do some building work of her own.
