

# Litter Picking in our Local Area

February 2024

In our core story 'The Journey' this half term, a boat broke free and sailed away on a magical journey. It slipped from the boy's grasp as he sadly watched it disappear from view. In response to the story the children were involved in several activities to recreate the story. One of these activities was to litter pick in our local area.

The children all wore gloves and carried a grabber ready to collect any rubbish they found on the paths around nursery.

The children collected lots of rubbish with their grabbers. They put the rubbish in a large plastic bag which we put in the big bin in nursery.

Some of the children litter picked on the path next to nursery and other children along Airedale Road. They found lots of rubbish which included plastic bottles, paper and glass.

Can you see all the rubbish we collected whilst out litter picking with the children?
